

NWOBI AUGUSTINE EBUKA

Full-Stack Developer | Python & JavaScript

Phone: +234 911 932 9899 Email: nwobiaugustineebuka@gmail.com Lagos, Nigeria
GitHub: github.com/Austin-dev7 LinkedIn: linkedin.com/in/austine-dev7-069a28431

PROFESSIONAL SUMMARY

Aspiring Full-Stack Developer with hands-on experience building responsive web applications and optimized Python tools. Built portfolio website, WeatherNow app with OpenWeatherMap API, and CSV Search Engine with $O(1)$ graph performance.

Skilled in Python (Flask), JavaScript, HTML, CSS, Tailwind CSS, Data Structures & Algorithms. Proven ability to design modern UIs, integrate REST APIs, and deploy full-stack solutions.

EDUCATION

Digital Fortress Institute, Lagos · Computer Engineering · Full-Stack Web Development Track | 2024 - Present

Intensive hands-on training in software engineering, building real-world projects using Python, JavaScript, HTML/CSS, Flask, SQLite and modern web frameworks.

WORK EXPERIENCE

Software Engineering Projects · Full-Stack Developer | Digital Fortress Institute | 2024 - Present

- Built and deployed 6+ full-stack applications with focus on performance, responsive design, and API integration.
- Developing desktop Study Planner application for task management and scheduling using Python, Tkinter, SQLite.
- Frontend: HTML5, CSS3, Tailwind CSS, JavaScript, Three.js, GSAP | Backend: Python, Flask, SQLite.
- Implemented graph data structures to achieve $O(1)$ search time and 0.00004s execution for 5000+ nodes.
- Used Git and GitHub for version control and collaborative development, Vercel for deployment.

SKILLS

Frontend: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), Responsive Design, Three.js, GSAP, DOM Manipulation

Backend: Python, Flask, SQLite, Tkinter, REST APIs

Tools: Git, GitHub, VS Code, Vercel

Concepts: Data Structures (Graphs, Stacks), Algorithms (BFS, Sorting Algorithms), $O(1)$ Optimization, GUI Development

PROJECTS

STUDENT STUDY PLANNER APP | Python, Tkinter, SQLite · Desktop app for task management, deadlines, study session timer.

CSV SEARCH ENGINE | Python, Algorithms, Graph · GUI search with $O(1)$ time, processed 5000+ nodes in 0.00004s.

WEATHERNOW APP | JavaScript, OpenWeatherMap API · Responsive app fetching live weather data for any city.

PORTFOLIO WEBSITE | HTML, CSS, JavaScript, Three.js · Deployed portfolio with animated typing effect. github.com/Austin-dev7

MAMA PUT RESTAURANT | HTML, Tailwind CSS · Responsive restaurant website.

SORTING VISUALIZER | JavaScript, Canvas · Visualized Bubble, Selection, Quick Sort.

STACK TEXT EDITOR | Python, DSA · Undo/redo editor using LIFO stack.
